## Solar Pumptec & Nastec Dam Pontoon/ River Application

The Solar Pumptec Nastec Dam Pontoon features include:

- Made from Heavy Duty Poly.
- Tie off location on the top of the Pontoon.
- Motor supported at 10 degree to ensure correct thrust on motor bearing.
- 304 Grade Stainless Steel as standard for easy cleaning.
- 316 Grade Stainless Steel riser and socket to suit Male and Female fittings.

\*Available as extra - Feet Support to ensure the pump never runs dry, more suitable for smaller dams.

Proud suppliers of

## Slotted Casing for Fixed River Application

If the river is too turbulent this maybe an option, a slotted casing can be slid into the side of the river bank or even attached behind a large tree stump, this way it can be easily removed if needed.

## Compatible with the following Nastec Systems

**NERA**

### Nera - Helical Rotor 2", DC Only

Flow To - 50LPM/Average 20,000LPD to 30,000LPD Max.
