

REMOTE PIVOT AUTOMATION

- Complete irrigation management
- Real-time Monitoring
- No control panel upgrade required
- Works with any brand of pivot
- Instant SMS Alerting
- Historical reporting

iNTELLiMachine

The iNTELLiMachine software is an addition on to our tried and tested iNTELLiNet and iNTELLiPump software, this software is for the full control of your pivots without the need for a costly computerised panel at the machine.

With the use of iNTELLiNet radio network you can control unlimited amounts of machines, pumps and gensets Etc, from the comfit of your home, office or remote. With the added bonus of all your monitoring needs in the one location.

iNTELLiMachine has a simple to use interface that enables you to monitor and control all your machines and with the use of iNTELLiNet radio network there is no need for Cellular/Mobile reception. Our radio network can repeat between machines to communicate back to your desired Base Station location.

Not only dose iNTELLiMachine give you real time monitoring and control it also gives you the option of scheduling future irrigations, SMS alerting and customizable historical reporting.
